DESIGN, SMALL SPACES!

MUSH 05

ANNA NAGAR RESIDENCE

A Home Crafted Within Constraints

PROJECT DESCRIPTION

A thoughtfully designed G+3 residence built on a compact 880 sq.ft urban plot in Chennai. Through intelligent planning, skylights, duplex living, and a centralized circulation spine, the home transforms spatial constraints into comfortable, light-filled living spaces.

LOCATION
Anna Nagar,
Chennai

AREA
3,224 Sq.ft

YEAR
2022

CONFIGURATION
G+3
Residence

TIMELIECTS
376 Days

EXECUTION PARTNER
SpaceMush LLP

ABOUT THE PROJECT

Designed for a narrow urban site, Anna Nagar Residence balances openness, privacy, and functionality.

Skylight interventions, connected living spaces, and private terraces create a bright and comfortable home while maximizing every square foot.

DESIGN PHILOSOPHY

RESPONSIVE PLANNING
Efficient use of space to improve daily living.

LIGHT & VENTILATION
Skylights and strategic openings enhance daylight and airflow.

SMALL SPACES DESERVE DESIGN
Thoughtful architecture elevates compact urban living.

- Red Oxide Flooring

CLIENT

Mr. Padmanaban
Anna Nagar,
Chennai

“

Great architecture is not defined by the size of the site, but by the possibilities created within it.
