330 Days
Total Project
Duration

CONFIGURATION

G+1 Residence
with Terrace /
Headroom

ABOUT THE PROJECT

LA PERLE Residence is a personalized G+1 home crafted around the family's lifestyle and day-to-day interactions.

The layout maximizes spatial flow with an open island kitchen and centralized corridors. Standout visual elements like WPC claddings, CNC metal grilles, and distinct tile work elevate its modern aesthetic.

DESIGN PHILOSOPHY

Crafted around the family's unique lifestyle and day-to-day interactions, the core functional approach ensures every space tells their story.

A major guiding design decision occurred during construction when the main staircase was relocated to the front of the building, transforming it into a signature aesthetic statement visible from the main road.

KEY HIGHLIGHTS

- Dramatic front cantilever staircase
- Double-height sunken living
- Extensive skylight integration
- Open island kitchen
- WPC louvers & CNC MS grilles
- Vibrant stained glass accents
