NATHAN'S HOME

A RENOVATION CRAFTED AROUND MODERN LIVING

Nathan's Home is a comprehensive 4,580 sq.ft residential renovation that transformed an existing G+2 residence into a highly functional and contemporary family home. The design reimagines every floor with dedicated workspaces, multimedia zones, family interaction spaces, and carefully planned circulation. A distinctive external MS spiral staircase acts as a visual landmark while innovative filler slab roofing enhances thermal performance and sustainability. The project balances utility, aesthetics, and long-term adaptability through thoughtful spatial planning and material selection.

ABOUT THE PROJECT

This G+2 home renovation opens up the interiors with reworked zoning, modern workspaces, and multimedia areas across every floor. A signature external MS spiral staircase and innovative pot filler slab roofs elevate both utility and architectural expression.

The design creates a warm, functional and contemporary home tailored for a modern family lifestyle.

DESIGN PHILOSOPHY

MULTI-FUNCTIONAL LIVING
Every space is designed to perform multiple roles while maintaining visual clarity and comfort.

SUSTAINABLE INTERVENTION
Filler slab technology reduces structural load while improving insulation and environmental performance.

ARCHITECTURAL EXPRESSION
The external spiral staircase becomes an iconic identity element visible from the street.
